Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-4 and 19-20 are allowed over the arguments by the applicants and the prior art of
record that neither teaches nor fairly suggestive of the limitations of the instant claims by the
applicants. The newly added claims were examined fully examined for patentability and
found to be patentable.

Closest prior art by Iwata et al (JP 11-071115) does not disclose or suggestive of the instant claim limitation of "half value width of the (400) plane of powder X-ray diffraction by Cu-Kα," and any such an inherency could not be established with absolute certainty. Further, disclosure by Maneev et al (US 6,267,943) do not meet the limitation of "average diameter of crystal grains" (Col-7, Lines: 5-12), and any inherent relation between <400> plane half width value of the Li-Mn-Complex Spinel to particle size and surface area could not be established with absolute certainty.

- Any comments considered necessary by applicant must be submitted no later than the
 payment of the issue fee and, to avoid processing delays, should preferably accompany the
 issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons
 for Allowance."
